

NOTE: WE MOSTLY FLY EAST + WEST, THEN NORTH + SOUTH DEPENDING ON WIND DIRECTION, THEN EVEN LESS CROSS CORNER.

1. WE HAVE PILOT STATIONS + FENCE GUARD ACCORDINGLY

2. I THINK WE WANT ALL MINIMUM DIMENSIONS WITH THE EXCEPTION OF WHEN WE FLY CROSS CORNER, WE HAVE 65 FT FROM FLYING TO PORCH ON LAWN MOWER SHED (SOMETIMES OUR WIVES SIT THERE) HOWEVER THERE IS A PROTECTIVE FENCE IN FRONT
