

Altitude Limit Waiver

This document is to certify MAAC has **approved** a request for operation above 700' above ground level by:

Name: Princeton RC Jet Fliers

MAAC/Club ID # 630

Zone: C

Flying site location: 49° 28' 09.5" N 120° 30' 32.1" W

Mandatory Conditions:

In addition to following all MAAC, Club and local rules:

This site is governed by the 2019 “status quo” agreement between NAV CANADA and MAAC.

All RPAS must remain below 2000' Above Ground Level and within any agreed upon confines from the above flying site location coordinates.

The Club must also follow all terms and conditions related to airspace permissions that existed on June 01, 2019 or have since been modified in agreement with the airspace controlling agency.

Recommendations:

No flying be permitted above 700' AGL unless a dedicated person has been assigned the sole responsibility of observing the surrounding airspace and advising of any approaching full-scale aircraft.

Allowed time and dates: per any agreement as above, otherwise no restrictions.

Expiry date of authorization: Permission expires on Club renewal date

A handwritten signature in blue ink, appearing to read 'Mike Anderson', is written over a horizontal line.

President, MAAC

Date: MAY 13 2022
