

Site Operating Certificate

This certifies that MAAC has reauthorized **PORT DOVER AMATEUR ROCKET CLUB [Club 914, Zone E]**

To operate the following categories of models: **Space Models**

At or from the following location: **LS1** (Land based RC on private land) – within 0.5 nm of **42° 47' 58" N, 80° 12' 60" W**

This authorization is contingent upon all members who use this site following the applicable Canadian Aviation Regulations, local laws, and all MAAC, Club or event rules. MAAC provides the following guidelines as information only:

Should this site permit RPAS:

mRPAS (sub-250gram) are not required to meet Basic RPAS Requirements and may operate at this location.

All RPAS pilots must meet Basic RPAS requirements.

As the site is located laterally 2.47nm southeast from an aerodrome (Dennison Field – CPA4), the club rules should contain aerodrome location information and any additional procedures the Club deems appropriate to permit RPAS operation in a manner that should not interfere with aircraft operating in the established traffic pattern (CAR 901.47(1)). CAR compliance remains an individual's responsibility.

This authorization is valid until the PORT DOVER AMATEUR ROCKET CLUB [Club 914, Zone E] fails to renew their MAAC membership, dissolves, or otherwise does not comply with any MAAC requirements or requests.

President, MAAC
