## Quarter Scale Flyers R.C.M.C. Safety Rules

(Please keep this page with all your required documents.)

- 1 (a) All members and guest flyers wishing to fly must possess and show a valid RPAS Basic or Advanced license and current MAAC and Club membership.  
(b) A guest of a current paid-up member is welcome to fly at our field provided they meet all the requirements of CARs Part IV. A guest member is allowed to fly two times but must then become a member. (when a spot becomes available).  
(Host members must be present while their guest is at the field.)
2. No one shall fly unassisted until they have their wings.  
It is recommended that no one should ever fly when alone.
3. Fly only in the designated area (See map for the designated area)
4. Aircraft shall never be flown directly at or over the pit area.
5. Flyers shall stand in the designated fenced flight stations when flying their aircraft, but may be allowed an exception to enter the field when taking off or hand launching. There will be a maximum of 1 aircraft in the air at any one time unless authorized by a club executive member.
6. All aircraft must be tethered or secured against moving forward before starting the engine.
7. All flying must cease during field maintenance.
8. Vehicles are to use the west laneway to access the pit location and parking area.
9. No person shall fly an aircraft while under the influence of drugs or alcohol.
10. No person shall fly an aircraft in a manner that creates or is likely to create a hazard to full size aircraft.
11. When there are low flying, full size aircraft near the field, you must land immediately.

---

12. Violation of rules 9 or 10 may result in immediate expulsion from the club as they are not subject to the progressive disciplinary code.

13. 3D flight or hovering will NOT be conducted within the perimeter of the runway unless you are the only one flying.

14. Engine Shut Off. The pilot must be able to shut off the model's engine by radio control with the plane in any position (e.g., a servo dedicated to throttle control or a kill switch) and all flyers must shut off their model when returning to the pit.

15. The hours of operation and the maximum noise limits at the field shall be:  
Near silent or extremely quiet Gliders and Electric Aircraft: Sunrise to Dusk; Gas Aircraft: 9AM to 9PM

16. Aircraft which generate sound levels over 88dB @ 3 meters should not be flown without special permission of club executives.

17. Mufflers are mandatory.

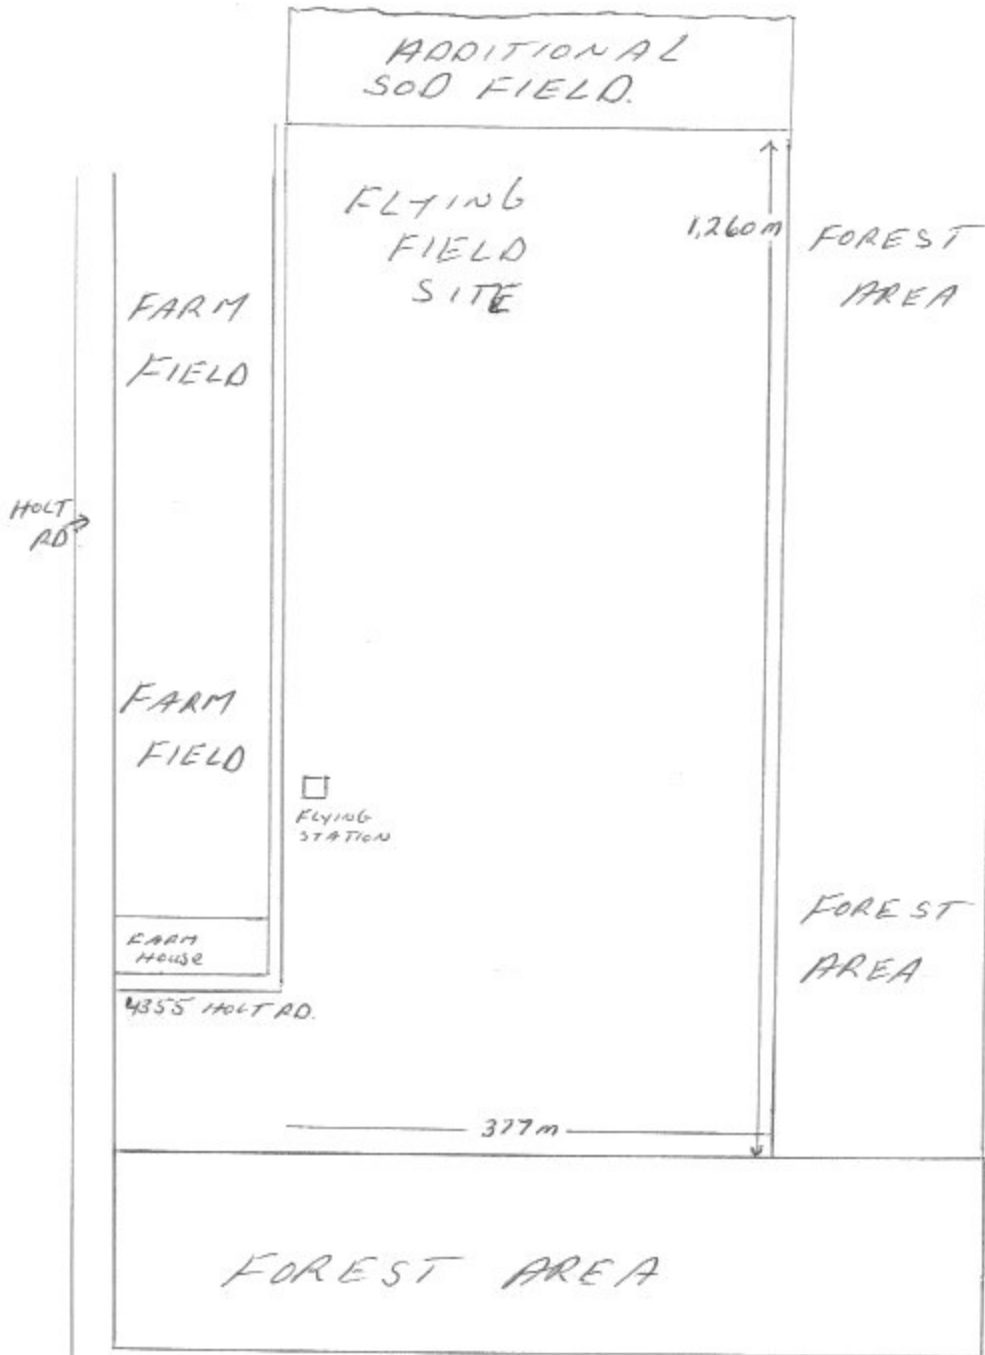

18. Glo-Fuel is not permitted without prior authorization from the club executive member(s).

19. Be prepared to produce your club authorization letter.

20. Please ensure your garbage is picked up before you leave the flying site for the day.

21. Please note it is up to each member to help enforce these simple rules to protect the privacy of our flying site.
