

## Site Operating Certificate

This certifies that MAAC has reauthorized **STAMPEDE CITY RADIO CONTROL MODEL CLUB [Club 44, Zone A]**

To operate the following categories of models: **mRPAS and RPAS,**

At or from the following location: **SCRCMC** (Land based RC on private land) – within 0.5 nm of **50° 56' 7.0" N, 113° 50' 38.30" W**

**This authorization is contingent upon all members who use this site following the applicable Canadian Aviation Regulations, local laws, and all MAAC, Club or event rules. MAAC provides the following:**

This site requires all RPAS pilots to meet Basic RPAS requirements for RPAS operations below 400'AGL. RPAS pilots intending to operate above 400'AGL must have a valid and current Advanced RPAS Operators certificate or be operating under an appropriate authority issued by MAAC or Transport Canada.

As the pilot stations are located laterally 3.1nm northeast of an aerodrome (Winters Aire Park – CYF4), the club rules should contain aerodrome location information and any additional procedures the Club deems appropriate to permit RPAS operation in a manner that should not interfere with aircraft operating in the established traffic pattern (CAR 901.47(1)). CAR compliance remains an individual's responsibility.

This site has been approved for RPAS operations to a **maximum altitude of 900'AGL**, provided all conditions outlined in the MAAC approved club rules and MAAC SFOC are met.

Any changes to club rules or procedures upon which this authorization was issued must be approved by MAAC before taking effect.

CAR Compliance remains an individual responsibility.

**This authorization is valid until the STAMPEDE CITY RADIO CONTROL MODEL CLUB [Club 44, Zone A] fails to renew their MAAC membership, dissolves, or otherwise does not comply with any MAAC requirements or requests.**

*Carl Layden*  
President, MAAC
