

Aerodrome traffic questionnaire to be completed by the aerodrome owner or operator.

Dear Aerodrome operator or owner.

The Model Aeronautics Association of Canada (MAAC) has received a request from Club Mini-Air 2014 to operate RPAS from your aerodrome.

Before MAAC will approve any such operation and provide insurance coverage, MAAC leadership and the safety team need to understand what full-scale air traffic looks like on any given day.

Please complete this short questionnaire in your own words. If you prefer to speak directly to a person, you may arrange a phone call through MAAC national office at 1-855-FLY-MAAC (1-855-359-6222)

1. How would you describe the general nature of the aerodrome? Is it an infrequently used private aerodrome, an aerodrome for a group of select users, or a general aviation aerodrome frequented by various itinerant aircraft in the area.

~~Private~~ General Aviation

2. On any given day, how many aircraft "movements" would be expected? A movement is one take-off or landing, or one touch and go if conducting circuits.

20

3. Are there any daily, weekly, monthly, or seasonal fluctuations in the traffic types or frequency?

no but summer have more movements

4. Are there any special aviation events or types of operations at the aerodrome?

Yes we have event at the end of august

5. Are there any concerns about aircraft parked outside being potentially damaged by modeling activities?

No

6. Please list any other items you think might pose a safety or insurance risk for MAAC.

~~Anything~~ Nothing
