

2025 Beanfield Stunt

July 19-20th, 2025

It was NOT a dark and stormy weekend at the Beanfield. For those who took refuge on their couch rather than take the leisurely drive to the field of dreams in lovely Dresden, you missed a fun one!

Saturday was sunny and warm with a comfortable level of wind that came without severe turbulence over the beans and wheat stubble. N30/Nostalgia, Old Time and the new KISS (Keep It Simple Stunt) were all completed.

Then came Sunday. Ahh, the wind was up in intensity and coming over the trees. Turbulence was plentiful for Profile and CLPA. Each flight featured moments of precision control line aerobatics and 'unprecision' free-flight aerobatics. The sky was cloudy so sunglasses were optional. The temperature was lower but the humidity much higher than Saturday. But both events were flown and the forecast showers never made an appearance.

Thanks go out to Brad (CD) and Nancy for again hosting at the Beanfield such a great stunt event and for the awesome BBQ and drinks and to Len for acting as ED and to Naomi for keeping the scoring table functioning quickly and flawlessly both days. Thanks also to Keith Morgan for judging every flight in every event!

Here is an assortment of photos of the weekend action. Enjoy!
